## ... JW MARRIOTT LOS CABOS ...

Designed by architect Jim Olson, the JW Marriot Los Cabos reflects the deep blue Sea of Cortez from every perspective, while their horizontal structures frame the beauty and colourful textures of the Baja California desert.

With a light and contemporary line that respects its vast natural landscape, will have direct access to the golf course - designed by Greg Norman and Jack Nicklaus - and the private luxury marina in Puerto Los Cabos, favored by travellers worldwide.
